1. Spiritual Healing: and more specifically: immediate/ acute  
spiritual healing is not a chapter of spirituality to play with/  
joke around with/ “ involve games in”- for lack of a better  
term
2. Spiritual Healing( at least in its attempt), can completely  
shatter, not just your dreams, not just your life, but your  
very existence; Not just your momentary existence, but  
your eternal existence
